Adding integers

-if they have the same sign, add the integers and keep the same sign

5 + 7   -6 + -5

-if they have different signs, subtract the integers and keep the sign of the larger digit

-16 + 7   22 + -13

Aug 26-3:16 PM

Subtracting Integers

-use the additive inverse

   -Keep the first integer the same

   -change subtract to add

   -change the second integer to its opposite

   -NOW use the rules for adding integers

8 - (-7) =   -15 - 6 =   -22 - (-17) =
