

Ratio

a comparison of two numbers

4 ways to write a ratio

1. as a fraction
2. 3 out of 5
3. 3 to 5
4. 3:5

Jan 14-8:52 AM

rates/unit rates

a comparison of two different units

example: 3 tickets for \$18

How to find a unit rate

divide

**when finding a unit rate you are finding how much or how many for 1

Jan 14-8:58 AM

a 5 lb bag of potatoes cost \$4.32, while an 8 lb bag cost \$6.78. Which is the better deal?

How to find better buy/best deal

- find the unit rate for each (divide each)
- compare to see which unit rate is cheaper
