Reflection

when a point or figure is "flipped"

Reflecting over the x axis

- x coordinate stays the same

- y coordinate switches to its opposite

Nov 17-10:48 AM

Reflecting over the Y axis

- x coordinate switches to its opposite

- y coordinate stays the same

Nov 17-10:51 AM

Reflection

when a point or figure is "flipped"

Reflecting over the x axis

- x coordinate stays the same

- y coordinate switches to its opposite

Reflecting over the Y axis

- x coordinate switches to its opposite

- y coordinate stays the same
